SPA & SALON

AT THE RITZ-CARLTON, PHILADELPHIA

Spiritual

Richel D'Ambra Spa & Salon offers a unique experience, merging ancient therapies with innovative techniques in a harmonious environment that has been carefully detailed to elicit a flow of energy known as Chi, Ki, or Prana. Our mission is to ensure a meditative, holistic, yet invigorating result to restore one's own well being.

Balance

Balance is the key purpose and intention of all of our spa treatments.

The body contains these five elements:

Water ~ Wood ~ Earth ~ Fire ~ Metal

The five elements may link to form a mutually productive cycle or a mutually destructive cycle. Thus, it is vital to understand and nurture each element. Our treatments focus on following the balance and harmony of the body. Through understanding these qualities we enter into a deeper sense of relaxation and peace.

Enlighten

Within a balanced environment, Richel and her enlightened staff welcome you to experience one of the many modalities of energy work. Energy work is a healing modality that focuses on components clearing, balancing, aligning, and restructuring the various components of the human energy system. It helps people to reduce stress, promote healing and balance emotions. All energy work begins with a consultation to determine which work is for your personal individual needs.

Harmony

Our treatments amend challenges of the body such as excessive dehydration, exhaustion, sun damage, aging and hormonal changes. By evoking a peaceful restoration of each element and tenderly assisting the body to find its structural and spiritual Chi, we allow for harmonious energy once again.
